

[Emergency Services](#)

The Emergency Services of Trinity Health System are available at Trinity Medical Center West. The Trinity Medical Center West Emergency Department has been remodeled and expanded to accommodate patients requiring treatment.

A list of services (located below) provides an at-a-glance list of services available at both locations. This list is not comprehensive, but should serve as a basic guide for selecting the proper site for treatment.

Local residents should familiarize themselves with these services, so, in an emergency, they can access emergency and urgent care services properly. If you have any questions regarding Emergency Services, please call The Professionals at 740-264-8000. If you have specific questions, feel free to email us at feedback@trinityhealth.com

Trinity Health System Emergency Services

To provide fast, accessible, professional, and compassionate care for the residents of the Upper Ohio Valley.

Information For Parents/Guardians:

Sometimes, parents/legal guardians must give authorization for someone else to seek their minor child's medical treatment. [Click here to download the form](#) to authorize someone else to seek treatment for your child, if necessary, for a designated time while parents/legal guardians are away.
