

[Volunteer](#)

Welcome!!

Trinity Health System welcomes you as a member of our Volunteer Staff. You are joining hundreds of other volunteers who give of themselves to help others.

As a volunteer at Trinity Health System, you will join a team of health care specialists who are dedicated to providing the best in health care.

It is only through working together that the team members can reach their goal.

To become a successful team member, you must have information about the Hospital and the Volunteer Program. The Volunteer Handbook was developed for the purpose.

Trinity Health System administration and staff appreciates your participation in the Volunteer Program, and we thank you for your time and effort.

All adult volunteers are selected on the basis of their qualifications and ability regardless of race, creed, color, sex, marital status, age or national origin.

Please select from the following Volunteer Information:
